    This section contains ：

    1) ASee Series of software and manual

    2) P2P Series of software and manual

4. Play Tools and instructions

The brief description of directory

1. PC Client:

   Users can remote view and manage DVR through installing the client.

2. Manual:

Manual introduces various parameters and usage of DVR.

3. Mobile Client

   Our DVR can support some software, like ASEE, ASEE +, NAWAY + and NAWAY. Moreover, platforms of iphone and android can be downloaded through the App store.

   The Nvplayer is more convenient than Asee, no port mapping,directly enter the ID number to login

4. Play Tools and instructions

This part mainly introduces the software of converting LVF to AVI.
